Albrectson Law Offices Securing Peace of Mind Today For Tomorrow

A proper estate plan begins with a consultation with an expert. That's why at the Albrectson Law Offices every client meets first with one of firm's attorneys to assess needs on an individual basis. For many, the most appropriate estate-planning document would indeed be a new living trust, but others may have greatly differing needs.

If your loved one has died, you may need to go through the probate process. If your loved one had a trust, there are legal issues associated with winding up a trust. If things are not going well in a probate or trust administration, you may need some litigation support.

If you are a small business person, have you tended to the legal needs of your business? If not the attorneys at the Albrectson Law Offices can help you.

Albrectson Law Offices emphasizes Estate Planning, Probate & Trust Administration, Estate Litigation Business Law and Bankruptcy. The office is located at 1801 Orange Tree Lane, Suite 230, Redlands CA, 92373. For more information about the services offered by the Albrectson Law Offices call 335-9658

E-mail time savers

Technology is supposed to give us more time to do more important things. But when it comes to e-mail many of us spend more time than needed responding to electronic messages. Here are a few tips for working more efficiently with e-mail.

1. Check your mail only twice a day. There's no reason to check you mail several times a day. Set a time in the morning and in the late afternoon when things are quiet.
2. Separate your personal and business mail accounts. Keep your personal mail out of work and keep your work mail out of your home. You can use a service like ivillage's free e-mail or Hotmail to maintain a separate personal account. Avoid the temptation of checking that personal account during the day.
3. Filter the spam. Spam is unsolicited e-mail advertising. Instead of simply deleting the message there is often an option to request a stop on the e-mail.
4. Organize your addresses and messages. Don't waste time retyping e-mail

addresses every time you send something. Keep a running address book for all of your e-mail addresses. File your messages into appropriate folders as soon as you read them.
